Personal Statement:

Please answer the following question in 100 words or less:
NYSACAC Executive Board members are leaders of a vital organization. Please
describe your vision of NYSACAC's future and how your leadership can help to
advance the association's mission.

Personal Statement:

My commitment to the admission counseling profession and the work of NYSACAC has prompted my interest in serving our membership as vice president for finance. In my twenty-six years, as an admission and enrollment management professional and member of this organization, I have served on numerous committees and attended many of the conferences, legislative forums and professional development workshops it has offered. I have established myself as an effective administrator, capable manager, and a knowledgeable leader. Through my own doctoral work, I have become increasingly more aware of the challenges associated with college counseling and access to higher education. As I've watched this association grow and flourish with outstanding leadership, I have been moved to contribute my efforts to this association in a more significant way. As demographic shifts occur in our state and this region of our nation, NYSACAC more than ever before, has the tremendous potential to help shape tomorrow's leaders. I would like to play a key role in helping attain and manage the resources to do this successfully. I hope that the membership will offer me this opportunity.
