Personal Statement:

Please answer the following question in 100 words or less:

NYSACAC Executive Board members are leaders of a vital organization. Please describe your vision of NYSACAC's future and how your leadership can help to advance the association's mission.

Going forward, I envision the NYSACAC as a vital and relevant organization that supports "ethical and effective admissions practices" while supporting individual student goals. The work of our organization will become both increasingly challenging and necessary as we face such pressures as: the impending decline of high school graduates, rising institutional pressure to achieve difficult – and sometimes unrealistic admissions goals; and greater public scrutiny.

My professional and volunteer experience working with education professionals in all sectors leaves me well prepared for the challenges of working collaboratively, inside and outside the organization, to help the NYSACAC advance the association's mission.
